Wordoku is the same concept as Sudoku except with letters. Once the puzzle is completed a word has been spelled on one of the lines (time for word search). I work on them every night and wish Frank Longo was not the only one creating this type of puzzle book.0 of 0 people found the following review helpful. Great book!By CustomerIf you like Wordoku.... this book will keep you busy for quite some time. 900 puzzles to complete.Lots of fun!

Wordoku is a cool combination of sudoku and wordplay and its the hottest new craze among puzzle lovers. This massive collection, which follows on the success of the two earlier Big Books, will provide solvers with hours of fun. It features an amazing 900 wordoku, with grids in a variety of sizes: smaller 8x8s, standard 9x9s, and extra-hard 10x10s. The rules are simple, and almost exactly like sudoku except with letters in place of numbers. Because the levels range from easy to brainbusting, everyone will find puzzles that are just challenging enough. Plus, when players are finished filling in the grid, they get to uncover a hidden word to complete the puzzle!
