It tells the player how to beat the game in the most effiecent manner and also tells the player how to get all the secret characters. However, is the guide really needed? No- the Bouncer is a pretty self explanatory beat 'em up type of game. So, although the guide is very good, nobody should need it to beat the game or get all the characters.3 of 4 people found the following review helpful. Lots of help and secretsBy Franco IraceThis book helped me out a lot during gameplay. It tells you who's best to use against bosses and in situations. That's not the best part though. It also tells you how to unlock all the secrets and discover the whole story. It also tells how to unlock all the character in versus mode. Definitly a guide worth buying.2 of 4 people found the following review helpful. The

Best official strategy guide ever!By David MarksI think this is the best strategy guide because it tells me what to do and tells me how to beat the game faster then tring to beat the game. If you don't buy this you will have a hard time tring to beat the game.Please buy this and one more thing HAVE FUN!!!!!!
