9 of 9 people found the following review helpful. Tough and LongBy B. EinhornFor Intermediate Plus/Advanced players.Perhaps 350 problems in 24 chapters covering all aspects of defense. You will be exposed to many types/categories of defensive problems. Such as:- opening leads- signaling- inferences from bidding (shape, HCP)- counting the hand (shape, HCP)- avoiding end plays- 2nd hand High- Ducking- Giving Declarer a losing option- Carding technique (pinning/smother play)Many of the hands took me several minutes to think about.Not that I could do that at the table, but it helps focus you on what the correct thought processes are.Very worthwhile book3 of 3 people found the following review helpful. excellent book in defenceBy Cai JunI have improved a lot after I got this book.
