I'm almost through the soul section, and WOW some things that seem so simple can be so difficult! Zoro provides helpful resources such as listening guides and coordination exercises as well. Great book; i would recommend it to any intermediate/advanced drummer1 of 1 people found the following review helpful. The Commandments of RB Drumming is a historical and in-depth study of RB drumming, from soul to funk to hip-hop, written by world-renowned session live drummer Zoro (Lenny Kravitz, Bobby Brown, Sean Lennon). Topics include practice tips, developing the funky bass drum and hi-hat, creating and playing with loops, and what are considered the Ten Commandments of Soul, Funk, and Hip-Hop (the top ten recordings from each era). This book not only pays homage to the RB drummers of the past, but gives the reader a fortune of invaluable information both in history and playing. This newly revised 10th anniversary edition features updated information and loads of new photos and album artwork throughout. It includes a play-along CD featuring various styles of RB, and also includes an RB history tree. 160 pages covering every imaginable angle, nook, and cranny of RB for only \$24.95! The book was voted the #1 educational drum book in the world by Modern Drummer magazine's Readers Poll and also deemed "a must-have for the soulful drummer," by Traps Magazine.
