By A Customer I'm at a loss to describe the beauty of this book. It just resonates with my soul. 2 of 9 people found the following review helpful. Terrible  
By baynu Garbage. This entire book is garbage. I thought it would be a good idea to have this around for new drinking games with a few of my buds. No. There is not 1 viable game in this book that doesn't sound like it was made up by a 13 year old. I had my last review deleted, probably because of profane language, and I haven't looked at the book in a while but I do recall there being a game where you drink when an inning starts when you are watching a baseball game. Or another has a keg and a team of 5 people just try to drink it as fast as possible. This book has that kind of stuff in it. Just terrible. Do yourself a favor and don't buy this book. Just google drinking games.

The book that has intoxicated a generation and has sold over 500,000 copies is back!
