Joseph Haydn, Music Scores : The Creation in Full Score (Dover Miniature Music Scores) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Creation in Full Score (Dover Miniature Music Scores):

0 of 0 people found the following review helpful. Five StarsBy Raymond Moses Chupp:)0 of 2 people found the following review helpful. It is what it is.By Song GameIt is what it is. It's a score of Haydn't Creation. Nothing more, nothing less. It serves the purpose that it intends to.6 of 6 people found the following review helpful. Definitely worth owning if you love this musicBy 55anonymous55Dover deserves praise for making the score of Haydn's masterpiece available at such a low price. Naturally, what you get is not the most recent scholarship, but rather a reproduction of an

old out-of-copyright edition (C. F. Peters, Leipzig, 19th century). At the price, this is fair. The text is legible, but not outstandingly so. I would guess that Dover reduced a full-size conductor's score slightly, to piano-music size. But the result is far more legible than a miniature score of the kind sold by Eulenberg would be. Note that this score is for the purpose of study and following along while you listen. For actual performances, a choral singer would need a normal choral part (various publishers) with a piano reduction, as the previous reviewer noted. This Dover score would involve too many page turns for a singer, and in addition the tenor part is given in an old musical clef that would cause most tenors trouble in reading. The words are in German with an English version directly underneath. This reflects the composer's original intention: since he had an enthusiastic following in both Austria and England, Haydn insisted that his librettist (Gottfried van Swieten) provide a metrical translation of the German words into English for the first edition. Van Swieten, though not a fluent English speaker, gamely complied, and the occasionally-amusing result is reproduced here.

Perhaps the most majestic achievement in the last phase of Haydn's musical career, *The Creation* is a choral masterwork of seamless perfection. It is also among the most popular oratorios of all time, celebrating the glories of nature, man's innocent joy, and his gratitude to God for creating simple things for his pleasure and benefit. Extolling the wonders described in the Book of Genesis, the work combines the traditions of a Handel oratorio and the Viennese mass with Haydn's own symphonic style. Reproduced from an authoritative early edition, this score appears with bar-numbered movements and includes a text underlay in both German and English. Ideal for study in the classroom, at home, or in the concert hall, this affordable, high-quality, conveniently sized volume will be the edition of choice for music students and music lovers alike.
