By Kristen La Madrid  
This book contains 240 Disney songs from various forms of entertainment, including: 1) animated features/featuresettes, 2) live action, 3) television, 4) Disney theme parks, 5) theatrical production. It is likely that this edition was published before "Tangled" and "Frozen", since no songs from those movies are included in this book. There is one index by song title and another by show title. Most, if not all, of the songs seem to be written in the original key. Although there are a lot of songs, a lot of them are classics from older shows; therefore, the millennial generation may not appreciate some of these songs. My only disappointment is that there are only 2 songs from The Hunchback of Notre Dame and only 3 songs from Pocahontas. Over all, it's a good investment for the Disney music fans.

By Jeremy  
This is a great purchase, I love to arrange the songs for my students and myself to play for fun. My students enjoy the songs because they know them, and they also get to learn many chords such as augmented and

diminished chords as well as key changes all under the guise of fun Disney songs! The students can also play melodies that they are familiar with and the songs have been met with success so far. 1 of 1 people found the following review helpful. WOW! By Samantha I am in LOVE with this book! I don't play the piano well. No matter how hard I have tried to learn, I just am not gifted in this area. I am a vocalist and give lessons, so this book is very helpful because I can play the melody line and improv a little. My students love the music, too. It was such a great purchase because now I don't have to buy a million books in order to satisfy my students' interests. This book has many of the songs that they know and want to work on. Many of the movies have almost all the songs represented in this book. I am very pleased!

(Fake Book).
