I don't want to play them all in C but they can be easily transposed. Lead and melody lines are great and the chords are easy to play. You can embellish chords if you want or simply play them as they are. I am an intermediate player but these are great for beginners and just challenging enough to make you stretch your musical muscles. I wanted a book I could use in my small group and on camp outs with my Trail Life USA troop and this is it!0 of 0 people found the following review helpful. I love this bookBy ConnieI love this book!

I've only been playing piano a short time so it's perfect for me. (But why is it called "Fake"??? It's basic, but you have to be able to read music and chords to play the songs.) Lots of good songs from which to choose. I will purchase others, but still don't like the name :) 0 of 0 people found the following review helpful. Great for teaching how to play with chords! By ADKerGreat for teaching kids how to play using chords. These are relatively easy -- all in the key of C -- so I use this with my students. Ordering another copy for another student now!
