The only thing that bothers me is the there are nine letters in the answer but there are ten puzzle drawers....I never did figure out the last drawer but still had the answer. Did anyone else have the same experience?I love Nick's books and am collecting them all.0 of 0 people found the following review helpful. fun, and beautifully illustratedBy AllysonThis book is actually a game, a riddle. You have to look at the contents of a "drawer" in the jukebox, and read stories that accompany the drawer to solve the riddle. Challenging, fun, and beautifully illustrated. Great gift for anyone who loves music and puzzles.0 of 0 people found the following review helpful. Five StarsBy Kathleen Ann Randellove it

In this picture-cum-puzzle book, every picture is full of clues which are designed to lead to the whereabouts of Hamilton Hasp, an eccentric millionaire who has disappeared. The drawers of his Egyptian jukebox each contain objects from a specific geographical location and have a corresponding story from Hasp's life. Nick Bantock also wrote "Griffin and Sabine", "Sabine's Notebook" and "The Golden Mean".
