Jodel Abrams : The Enchanted Forest (Troubadour) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Enchanted Forest (Troubadour):

When I remember reading this story as a child I can still feel the wonder and magic that filled me.1 of 1 people found the following review helpful. Back to the Enchanted ForestBy A CustomerI loved the Enchanted Forest and the Enchanted Kingdom when I had them as a child. The pictures are beautiful and if a child likes fancy coloring books this is a great choice, especially for girls who will love the tale of an enchanted princess who falls in love with a handsome prince. The hidden images are cleverly worked into the designs and some of them take a great deal of time to pick them out. I am so glad to see that these books were published again so that I can buy them for my neices!

Enchanted creatures are just waiting to be found in this beautifully illustrated Color Story Album with Hidden Pictures. Young readers will delight in finding the magical animals and lovely spirits hidden in the detailed illustrations to color as they learn the secrets of the Enchanted Forest, complete with a beautiful princess.
