Since there's no plot to keep track of, you can read for 5 min and put it down and pick it up again two days later without missing a beat. Just playful fun.0 of 0 people found the following review helpful. Literate funBy MinnesotanYou really owe it to yourself to get all ten of these books. You can read them on the beach, at the campground, at home. Just be sure to have a pen to highlight particularly hilarious items. You'll end up with a whole book nearly underlined.0 of 0 people found the following review helpful. Great for kids that hate to readBy LajeaneInteresting bathroom reader for kids and adults alike. Its full of Tidbits of information not usually found anywhere. I bought it for a boy that hates to read

The useless information never ends in the newest, most crucially meaningless addition to the #1 New York Times bestselling series. More facts! Less substance! This cornucopia of amazingly pointless facts and figures will have you marveling at all the things you never needed to know. There's no good reason for you to know... ? that Mickey Mouse was banned in Romania. ? that a company sells bikinis made from salmon skin. ? that Brigham Young had fifty-five wives. ? that the Romans used to pay their legions in salt. But we'll tell you anyway, along with... ? where the world's largest ant colony is. ? which country invented figure skating. ? the name of America's bestselling ice cream brand. ? how many muscles make up the tongue.
