The puzzles in the book are OK but the way they are laid out is awful. The letters are too small and bunched up. The letters are so small that when a word is circled it marks through letters that might be needed for another word. Very frustrating - and the book is not cheap. The next printing run they need to make the letters larger and thinner and they need to be farther apart. I would not purchase another book like this.0 of 0 people found the following review helpful.
