By happydoc For the puzzles that require considering several possibilities in a square (which happens a lot in the difficult puzzles) there is no room in these tiny squares to write those possibilities. The book itself is smaller than the first Everything Kakuro book and has two puzzles per page rather than only one as in the first book. The first Everything Kakuro book is one of my favorite puzzle books (in fact, I have purchased and completed it twice in the past five or so years) but this Super Challenge book is basically unusable and I do not recommend it to anyone. I have asked for a refund on this book. 13 of 14 people found the following review helpful. Useless By The Bibliophile I was very disappointed when I received this book. The book is about 5"x7" with two puzzle per page. That makes for a small puzzle. The "look inside" view is very deceptive. The image is actually larger than the book that you receive. Also the puzzles are Black White. Not shades of gray like better puzzle books (which by the way the "look inside" view would lead you to believe this one is). The clues are in white type on a pitch black background, which is much harder to read in lower light (like on a subway) than black type on a grey background. I have 20/14 vision and I found the print on the puzzles too small to read comfortably. And the answer key is ridiculously small. You need a 10x magnifier to see anything! I can read the bottom row on an eye exam chart, but I couldn't comfortably make out any of the numbers in the answer key. And I have to hold the puzzle book at least 3-4" closer than a would normally hold a book while reading. Again not comfortable while trying to do a puzzle on the subway. My advice save your money, and save your eyesight. Its not worth the eye strain its not worth the aggravation especially if you are a puzzle fiend like me. 6 of 6 people found the following review helpful. The Everything Kakuro Super Challenge Book: more than 300 By Dakota girl I have ordered many Kakuro books from but this one is a great disappointment! It does not have 300 puzzles but only 100. They are also mildly challenging, not super challenging. Where are the other 200 puzzles?? I only got 1/3 of the book!! If I had my receipt, I would return it for a refund.
