book because my husband suffers from dementia and these are the only kinds of puzzles he enjoys, and his neurologist says they are good for him. He will do them for hours. Aside from being large the print is very defined on a white background. . I really appreciate the size of the print and the puzzle itself because he also has cataracts, which can't be removed due to his heart condition. I have had other Timmerman books and they have all been easy for my husband to use.
